WALKABOUT UNIVERSAL HARNESS (WUH)

The WalkAbout Universal Harness (WUH) not only replaces both the WalkAbout Chest Harness (WCH) and WalkAbout Sling Harness (WSH), but is easier to use and provides more capability.

- Works with either the standard WalkAbout or the split WalkAbout mounted on the chest plate
- Supports the TandemView™ display configuration with the WalkAbout monitor mounted on the rear
- Easy and intuitive to use to use
- Does not get tangled when stored
- Quick disconnect on both waist straps allows for quick and easy use
- Can be configured for either shoulder
- Wide range of adjustment allows for wearing over other gear.

Standard WalkAbout
mounted on chest plate

WalkAbout LCD mounted
on chest plate with the
WalkAbout base on Waist
strap. WalkAbout base may
be worn on the belt if
desired.

WalkAbout LCD mounted on
the rear. WalkAbout base can
be mounted on the chest plate
to balance the weight making
it more comfortable to wear.
